Vault Motor Remanufacturing & Parts

Jeff Warfield Electric offers full remanufacturing of the Hilljoy and Gray Brothers vault buggy motors.

All motors are completely disassembled

All new bearings, brushes and jumpers are used in the motor and gearbox

All new hardware is used

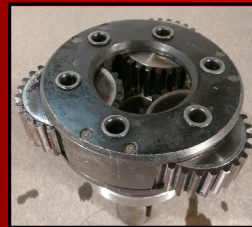

Cover bands are replaced with new

Gearbox is greased

Armatures are dipped in Class H varnish and baked for 4 hours

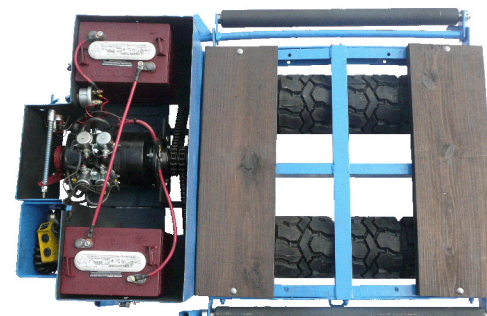

Armatures are turned and undercut and tested with a bar to bar tester

Motor is reassembled and performance tested

Turnaround time is ONE WEEK

Brushes, Jumpers and Solenoids are also available
